

# High Pressure Applications?

Your Tubing Options Are as Easy as

1. PEXclear® – 98 Durometer PVC
2. DuoPEX® – Two-Layer Polyurethane/Nylon
3. PEXbraid® – Nylon braided Polyurethane

- Great performance in high pressure applications
- Strength and clarity to meet your needs
- Superior kink resistance

Whether you're looking for great clarity in low-cost PVC tubing, new dual-layer tubing that combines transparency with enhanced strength and flexibility, or reinforced braided tubing for your high-pressure injection lines, PEXCO® Medical Products has the product for you.

	<b>Pressure Rating*</b>	<b>Overall Dimensions</b>	<b>Characteristics</b>	<b>Material</b>	<b>Cost Range</b>
■ PEXclear®	1200 psi	.087" X .187"	Stiff	PVC	Low
■ DuoPEX®	1200 psi	.071" X .142"	Flexible	PU/Nylon	Mid
■ PEXbraid®	1200 psi	.071" X .142"	Pliant	PU/Nylon	Premium

\* Hydrostatically tested

- **Clarity** All are transparent to permit easy identification of contrast liquids
- **Sterility** Capable of sterilization by either ETO (Ethylene Oxide) or Gamma (irradiation)
- **Flexibility** PEXclear, DuoPEX and PEXbraid have a minimum bend radius of 1/8" before kinking
- **Lengths** Standard 10", 20", 30" and 48" lengths. Custom lengths are also available. PEXclear and DuoPEX can be supplied on spools.

High pressure lines are produced with you in mind. They are supplied in bulk or can be provided assembled with components as per customer specifications.

## PEXCO® also offers tubing for your low pressure lines

- Pressure rating of up to 300 psi
- Available in ID Coil diameters of .75" and 1.25"
- Choice of custom or standard lengths
- Available in clear, 85 or 90 durometer PVC
- Bulked packed or custom assembled

Look to **Filtrona** for quality medical tubing and innovative extruded products servicing medical applications such as: contrast injection, gas sampling, drug delivery, IV Administration, hemodialysis, insufflation, pump, irrigation, drainage, suction, pressure monitoring, general fluid and gas delivery.
